

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Annual Research & Review in Biology
Manuscript Number:	Ms_ARRB_50410
Title of the Manuscript:	Taxonomical investigation on some species of genus <i>Allium</i> based on the pollen morphology
Type of Article:	

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>Authors do not know how pollen grains are, they must delete in table 2 the column POLLEN SIZE. And they need to add a column with the other polar diameter - because this type of pollen has one equatorial diameter, but two pollen diameters (a small and a big one).</p> <p>Authors only correct text mistakes set on file, the main points of changes are still as before.</p>	

Reviewer Details:
