PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Compulsory REVISION comments | | |
| Minor REVISION comments | <p>Overall, the paper has met the aim of the British Journal of Economics, Management & Trade. I really appreciate the author contribution in estimation of working capital management on profit using logistic regression and discriminant analysis on manufacturing and industrial firms in Ghana.</p> <p>The paper complies with the requirements mentioned in the guide for authors: the title is informative related to the article content; the abstract highlights the core findings of the article but the authors must mention all dependent variables; and the paper structure follows overall the structure indicated in the guide for authors.</p> <p>I have some recommendations:</p> <ol style="list-style-type: none"> 1. in the Introduction, the author must mention the objectives and aim of the paper; 2. the author should present at the end of the Introduction the paper structure, on sections; 3. maybe, the author should improve the literature review and the final references. <p>In conclusion I recommend publishing of this paper with these improvements.</p> | |
