PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Dear Authors,</p> <p>I do not see any figures and tables in the review which is very important. I therefore recommend authors to see some recent reviews published and put some nice 5 to 10 overview figures. Also, make some 2 or 3 tables out of your recent data available. Readers mainly decide the read or cite on the basis of tables and figures (attractive figures are key for the article to be successful). I therefore suggest you to revise the manuscript before it can be accepted for publication.</p> <p>Abstract</p> <ol style="list-style-type: none"> 1. Please restructure the abstract, words should be less than or equal to 250 words. 2. Kindly check and correct grammatical errors in the abstract. <p>Introduction –</p> <ol style="list-style-type: none"> 1. Please your work has no objectives. Kindly restructure the aim of the work clearly and concise within the introduction. <p>References</p> <p>References are too small for review on such topic. This research area isn't new, Please kindly search for more works and make the necessary corrections as suggested.</p> <p>NB. Kindly Check the MS attached for some grammatical errors.</p>
