General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. The paper needs a very careful proof-reading as there are many typos and grammatical errors. Why do you start High school with a capital letter? 2. The paper is not comprehensive in terms of explaining the methodology. Details on the full process should be explained. No info about the data collection methods and materials. How did you develop the questionnaire, etc? You employed "convenient sampling". You allow an unnecessary large place for tests and statistics. Where are the results to your research purpose statement? The number of samples is insufficient. Have you conducted a pilot study? 3. Inconsistency between the article title and its content. Where in the paper and how have you assessed the influence of SM on motivation? 4. The conclusion part is insufficient. Do you have suggestions for academics and practitioners? 5. The figures are very difficult to understand. Also, please be consistent when writing numbers. (USD 1,494.2bnUSD 2,311.4 million in...) 6. "Tourism is one of the fastest growing industries, where United" instead of "where" you may use that. 	
Minor REVISION comments		
Optional/General comments
