Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sd-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>The author is strongly advised to include the ethical clearance and source of grants (if any). This will provide solidity to the manuscript.</p> <p>The author is advised to add a note on statistical analysis under Materials and Methods. This will better clarify the analytical tool used, the software employed as well as the significant values.</p> <p>The author could also add some pointers on Table 2 to show the significance levels of the analytical tool employed. The author should not forget to add a note at the bottom of the table describing the meaning.</p> <p>In my opinion, I think the opening statement of the discussion needs to be adequately referenced.</p>	
Optional/General comments	A good write up	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
