

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	2019/JEAI/48537
Title of the Manuscript:	State of the art: Soil physical attributes
Type of Article:	Review Article

PART 2:

FINAL EVALUATOR'S comments on the revised paper (if any)	Authors' response to the final evaluator's comments
<p>A conclusion should be included in the last with future research direction on this particular field.</p> <p>In this review, there is no figure and table; some related figure and table should be cited from reputed journal-makes articles more visible and attractive.</p> <p>The introduction should be a little bit long with highlighting previous review and research articles that have been published before. I share some articles link in my previous comments –that should be included in the articles. Objective, outcome and contribution of this paper should be added at the last of the introduction section.</p> <p>Check English once again, better if check with any native English speaker.</p> <p>In the review paper, more citing related works makes the paper more visible to everyone-that should be considered. Add some recent articles.</p> <p>Make one paragraph in every section in the discussion section, instead of several points. Make a paragraph for each subsection.</p> <p>Other things are ok. Good works!</p>
