

**SDI Review Form 1.6**

Journal Name:	<a href="#">Journal of Experimental Agriculture International</a>
Manuscript Number:	Ms_JEAI_50539
Title of the Manuscript:	Fertilization With Silicon in Sweet Pepper Plants Grown Under Salt Stress
Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments	<p>After reviewing I comment it is simple but has potential and gives us data that could be of interest to those of us who work with Capsicum, in this manuscript the effect of the application of silicates to sweet pepper crops is described. Still, it has a series of problems that must be solved.</p> <p>It is not described in the text figure 1 and it is not clear what it means the y axis, figure 3 is badly described figure E, I think the name of the X-axis is in Portuguese, it is necessary that someone who speaks English review the work, it is necessary to define what it is liquid photosynthesis because it is not a common term in plant physiology.</p> <p>I believe that if these problems are solved it can be accepted for publication. My best regards</p>	
<b>Optional/General</b> comments		

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
