

SDI Review Form 1.6

Journal Name:	Journal of Geography, Environment and Earth Science International
Manuscript Number:	Ms_JGEESI_50523
Title of the Manuscript:	Static Mantle Density Distribution 1 Equation
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The distribution of words in the text and the mathematical calculations is chaotic! There is little space between titles, subtitles, words and mathematical formulas. Visually, the text looks like a jumble of letters and numbers. This makes reading fluency difficult. Find a way to improve the distribution of these elements in the text.	
Minor REVISION comments	I suggest the inclusion of the illustrative figures of the model being explained mathematically to make it more understandable what is being said through the text and numerical formulas.	
Optional/General comments	The work has a well-grounded mathematical argument. The study has its scientific importance and deserves to be brought to the knowledge of the academic universe to validate the hypothesis raised. I recommend the publication of this manuscript after passing through a minor revision.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
