

SDI Review Form 1.6

Journal Name:	Journal of Scientific Research and Reports
Manuscript Number:	Ms_JSRR_47644
Title of the Manuscript:	Analysis of Transmission Dynamics of Anthrax in Animal Population. A modeling Approach
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>This is a good topic, authors deal with some interesting issues, nonetheless they must improve the whole manuscript in order to be published. Here are the some issues to be taken into account.</p> <ul style="list-style-type: none"> • References have to be enumerated, in this case they are not, so is impossible to know which citation refers to when mentioned, in other words, it is not known what [1], [2], and so on are. • Proof of Theorem 1 in the present form is pretty confusing, I suggest rewrite it in more details and coherence. • In lines 79 and 107 (Lemma 1 and Lemma 2 respectively) is impossible to understand what the statements of those are. • This manuscript needs numerical implementation in order to assure results are correct and describing the real phenomenon. In almost all model of this type numerical implementation is a must. 	
Minor REVISION comments		
Optional/General comments	Once these remarks are incorporated to the manuscript I will recommend its publication	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
