(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. How far the market to the lab was, then make sure the samples were properly handled. 2. How the species identification done was not in the methodology. 3. Was the kit in method only to perform Gram negative bacteria? Since Gram positive bacteria were also identified. 4. It seems that Gram positive bacteria were mostly found in Marian market than in Calabar market which was Gram negative bacteria. 	
Minor REVISION comments	The high light words in manuscript may need for correction..	
Optional/General comments	Research was providing important inforations.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
