

Editor's Comment:

At this revised manuscript authors proceeded in a step by step and honest approach of all comments' suggested. Even though the modifications made are not plentiful, these modifications are smoothing the narrative flow in an attractive reading. Besides, the whole analysis is interesting and of insightful scientific remarks upon the environmental sustainability and perspectives of the Nigerian Delta. In this respect, the revised manuscript is novel and it can be published at the "Journal of Scientific Research and Reports" as is
