

**SDI Review Form 1.6**

Journal Name:	<a href="#">Asian Journal of Case Reports in Surgery</a>
Manuscript Number:	<b>Ms_AJCRS_50828</b>
Title of the Manuscript:	<b>NEONATAL BLADDER OUTLET OBSTRUCTION WARRANTING EARLY CIRCUMCISION</b>
Type of the Article	<b>Case Report</b>

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The title would sound better if likes of "urinary outflow obstruction" could be used. Meatal stenosis & phimosis are other causes of obstruction too. Ureteropelvic junction or uretero-vesical obstructions are not causes of bladder outflow obstruction. Reference to the text marked in yellow is requested. Please do not confuse between meatal & preputial stenosis. The Canadian society recommendation requires reference please.	The title has been changed to <b>NEONATAL URINARY OUTFLOW OBSTRUCTION REQUIRING EARLY CIRCUMCISION</b> Other corrections had been made in keeping with the reviewer's recommendation References added as requested.
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments		

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	(If yes, Kindly please write down the ethical issues here in details)
