

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Annual Research & Review in Biology
Manuscript Number:	Ms_ARRB_40203
Title of the Manuscript:	INCIDENCE OF PLANT VIRAL DISEASE SYMPTOMS AND THEIR TRANSMISSION AGENTS IN DUTSIN-MA METROPOLIS
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
The authors reviewed the text and incorporated the suggestions. However, in the item Visual inspection and identification of plants and viral diseases symptom the authors do not mention the number of plants collected with virus symptoms of each species, in each one of the localities. This is a very important fact.	The summary of the total plants collected in all the localities is now included under the heading “ Collection and identification of vectors associated with plants showing viral symptoms” in materials and methods. The tables for each locality is already in the appendix of the manuscript
