

SDI Review Form 1.6

Journal Name:	Chemical Science International Journal
Manuscript Number:	Ms_CSIJ_50873
Title of the Manuscript:	REMEDIATION OF SURFACE WATER CONTAMINATED WITH DOMESTIC PURPOSE KEROSENE USING FENTON'S OXIDATION
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The authors submitted an interesting manuscript dealing with the use of Fenton reaction for remediation of contaminated surface water. The manuscript is timely because contaminated water is serious world problem. The authors investigated the optimal reaction conditions. They used adequate methods, which are well described. The experimental data support the results, which are properly discussed and presented.	Thank you Noted your comments
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
