PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. Rewrite the title of the manuscript as suggested. 2. Under the 'abstract', a deviation from the overall aim of this study was observed. The aim of a study should always reflect in the title. 3. State the percentages of the isolates that exhibited resistance to erythromycin, gentamycin... in the abstract. 4. A complicating statement was observed in the 'abstract': It was stated that 'all the bacterial isolates obtained were susceptible to chloramphenicol' and in the same line, it was stated that 'low percentage of the isolates were resistant to chloramphenicol'. Resolve this! 5. State the name of the growth medium used in purifying the isolates in the MATERIALS AND METHODS. 	All corrections have been effected as will be seen in the corrected manuscript.
Minor REVISION comments	Correct all the spelling and grammar errors highlighted in the manuscript.	This has been done
Optional/General comments	Satisfactory
