**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	Reword the title and go through the paper to make sentences flow better. Make the graphs and tables more presentable. Some of the data is difficult to see. Make a statement at the end of the paper suggesting additional research needed for this topic and this region.	Thanks for valuable comments. Title has been reworded. Changes have been made in paper to make sentences flow better. Changes in tables and graphs have been made to make it more presentable. Additional research needs in this region and topics have suggested.
<b>Minor</b> REVISION comments	Use the same designations for statistical significance for all tables. The same text should be used under each of the tables with a superscript symbol, not the letters report.	Changes has been made as per need
<b>Optional/General</b> comments	This is an interesting paper. I would be interested in reading any follow-up studies on this subject.	Thank you very much
