General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The manuscript is well written and it is methodologically sound. There are relevant references missing in the Introduction, these should also be cited, based on the attached file. There are some grammar issues in the paper, these should be corrected, based on the attached file.	We would like to thank the authors for this valuable comment. The missing references in the introduction is completed. In addition, the grammar issues in the paper are corrected in the revised manuscript.
Minor REVISION comments	Antibiotic names should be written with lowercase.	All the antibiotics names are written in lowercase.
Optional/General comments	I recommend the acceptance of this paper, after minor revision.	Thank you for the decision.

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
