

SDI Review Form 1.6

Journal Name:	Advances in Research
Manuscript Number:	Ms_AIR_50702
Title of the Manuscript:	Physician Burnout and Associated Factors: Orthopaedics vs Anesthesia
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. It's interesting to see this kind of comparison study between different specialties, and between residents and attendings 2. Response rate of 38% is low. However, similar to most of this kind of study 3. Table 1 needs a title 4. Statistical significance vs clinical significance might be totally different thing. For example, in Table 3, Personal Accomplishments, statistically $P < 0.0117$, orthopaedic has a mean of 40.08, anesthesiology, 38.08. The real difference is very small 5. Better to include the the MBI-HSS survey in the paper so readers can understand the survey 	
Minor REVISION comments		
Optional/General comments	Not sure about the statistical analysis. Better to have statisticians review the manuscript.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
