

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBCRR_50608
Title of the Manuscript:	Effect of Annona Muricata Extract On Colon Antioxidant Status and Ketone Bodies in Blood and Urine of Cycas-Treated Rats
Type of Article:	Original Research

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<ol style="list-style-type: none"> 1. Your images fig 1-2.5 to 10..plagiarism.. taken from the Human Protein Atlas/-DUODENUM..Can the authors through more light..which instrument used .. 2. We need the evidence from which literature phytochemical results of the leaf extract..quote the relevant literature. 3. Antioxidant capacity test a must.. you are proving an experimental fact,, show the results 4. To know the type of colon cancer cells and ascertaining chemopreventive effects..immunohistochemical is envitable 5. Your biochemical assays methods are old,,and Dunnet's multiple comparison statistical approach is the widely accepted for biochemical statistical results—t-test is too primary 6. Look for funds, cancer is a thorn in flesh currently in the world.
