PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>This is an important topic that needs study of aerial and temporal variations on a regular basis, as there are many uncontrolled variables that affect basic inputs to enhance food production. Author has done a decent job, in collecting and disseminating data to bring out reasonably predictable output , in spite of uncontrolled natural basic inputs.</p> <p>I have nothing much to add or delete from the text. Author may include some important references to avoid post publication criticism.</p> <p>I recommend its publication, as it is, after making minor changes .</p> <p>After adding some important references this aspect will be covered</p>	
Minor REVISION comments	none	
Optional/General comments	none
