SDI Review Form 1.6

Journal Name:	International Journal of Pathogen Research
Manuscript Number:	Ms_IJPR_51084
	Molecular diversity and extended spectrum beta-lactamase resistance of diarrheagenic Escherichia coli from patients attending selected health care facilities in Nasarawa State, Nigeria
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of 'lack of Novelty', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	A study that clearly shows the spread of diarrhoea-causing genotypes of E. coli. Its conducted employing nucleic acid-based techniques to ensure sensitivity and is important in feeding information to health care officials in the various facilities. Publishable.	
Minor REVISION comments	Minor typos that cannot deter publishing.	
Optional/General comments	None.	

PART 2:

		Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
