PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Methodology is incomplete. Not enough information is provided with regards to the how this data was obtained. (via face to face interviews/questionnaires etc?) Only 1 light curing unit per clinic was considered?</p> <p>The type of light curing units (LED type, QTH type etc) is also not stated here. However, since the author mentioned debris in fans, are ALL of these light curing units QTH types? This is quite surprising as I would expect some of the private dental clinics to have started using more LED type light curing units in year 2015/2016? When was this data collected?</p> <p>What is the recommendation for light-curing units based on the findings of this research?</p>	
Minor REVISION comments	Please check and correct the grammatical errors.	
Optional/General comments	-
