Manuscript Number:	Ms_IJTDH_50954
Title of the Manuscript:	Prevalence and Associated Risk Factors of Soil-Transmitted Helminthiases among Primary School-going Children in Rarieda, Siaya County-Kenya
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>1. You must justify why having chosen to focus on primary school going children aged between seven and fifteen years old</p> <p>2. You must specify the period of the study: Raining or dry season! As you are interested with STH, the season my influence occurrence of the parasites</p> <p>3. You must seriously discuss your results, starting with why STH are endemic in your study area</p> <p>4. As it is STH, you need to consider peri-domestic variables in your risk factors. Those peri-domestic variables should include type of soil in and around the house, presence of mud or dust in the quarter and playing areas, etc</p> <p>5. Absolutely Re-write your conclusion by enlarging views, thoughts and perspectives</p>	
Minor REVISION comments	<p>See my edits on the manuscript</p>	
Optional/General comments	<p>Provide consent form and information notice</p>
