

**SDI Review Form 1.6**

Journal Name:	<a href="#">Journal of Geography, Environment and Earth Science International</a>
Manuscript Number:	Ms_JGEESI_50470
Title of the Manuscript:	INDUSTRIAL ROCKS AND MINERALS OF SOUTHERN BENUE TROUGH, NIGERIA.
Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

SDI Review Form 1.6

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p><b>The author is advised to organize his work in a sequential and orderly manner</b>  <b>The following guidelines can be adopted</b></p> <p><b>INTRODUCTION</b></p> <ul style="list-style-type: none"> <li>• Brief introduction while capturing the objectives and need for this study</li> <li>• Determine your scope by providing a location map indicating area of coverage or interest</li> </ul> <p><b>GEOLOGY OF THE STUDY AREA</b></p> <ul style="list-style-type: none"> <li>• Review the geology briefly</li> <li>• Include a geologic map if possible</li> </ul> <p><b>METHODOLOGY</b></p> <ul style="list-style-type: none"> <li>• Field study: How did you map the area, equipment involved? What field data did you collect (e.g strike and dip, trend of geologic bodies such as the Amasiri sandstone ridge, sedimentary structures,) How many sample/outcrop location did you visit?)</li> <li>• Laboratory Study</li> </ul> <p><b>RESULTS</b></p> <ul style="list-style-type: none"> <li>• Present all your data here (field measurements,pictures of outcrop/quarry sections/handspecimens.</li> <li>• Figures and plates should be well labelled with detailed information of what the picture depicts and location (e.g Section of Dolerite intrusion at Lokpanta)</li> </ul> <p><b>DISCUSSION</b></p> <ul style="list-style-type: none"> <li>• What is the geologic significance of presented data</li> <li>• You can now bring in the geologic history of mineral emplacement in the area</li> <li>• Then bring in the economic benefits of identified minerals and rocks</li> </ul>	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments	<ul style="list-style-type: none"> <li>• Rewrite abstract after adopting corrections</li> <li>• Provide a Loc and geologic map if possible</li> <li>• Follow the suggested template above</li> <li>• Expunge references in the list that were not cited in the main work or cite them accordingly</li> </ul>
