

**SDI Review Form 1.6**

Journal Name:	<a href="#">Journal of Materials Science Research and Reviews</a>
Manuscript Number:	<b>Ms_JMSRR_51213</b>
Title of the Manuscript:	<b>Thermogravimetry Analysis of Epoxy and Unsaturated Polyester Filled With Some Agricultural Waste of Dates Palm (<i>Phoenix dactylifera</i>) and African elemi (<i>Canarium shweinfurthii</i>) Particulate Composites</b>
Type of the Article	

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

SDI Review Form 1.6

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>Line 80 – this line is large as text matter is written in a table form, pl remove the text from the table so that all lines are seen with line numbers.</p> <p>Section 2.3 –authors are suggested to give details/ specifications of the equipment used for the Thermogravimetric Analysis. A reader may be interested to know about this.</p> <p>Line 81- something, may be figure or table is missing. Pl take care to check this and add if something is missing.</p> <p><b>Conclusion:</b> Line 186- Literatures have shown that... Authors have compared the results only with references [8] and [9] both are about 20 years old and not available in the web to check the comparison, what the authors are calming. <b>I suggest authors to cite recent references to strengthen the paper.</b></p> <p><b>References:</b> Reference [7]—the reference does not have page numbers etc. Check below is correct: The useful plants of west tropical Africa, Vols. 1-3 1995 No.2. ed. pp.976 ; 648 ; 868 pp. Suggested to add some more recent references</p> <p>After using some recent references, authors are suggested to rewrite the conclusions suitably.</p>	
<b>Minor</b> REVISION comments	<p>Line 15- unusual -- is it unusual? Check spelling</p> <p>Line 19- Temperature is every common keyword. Suggestion—use Dates palm or African elemi, which is more suitable for the work</p> <p>Line 52- Palm date write as Date palm</p> <p>Line 65- Plate 1- write as Figure</p> <p>Line 76- Plate 2- write as Figure</p>	
<b>Optional/General</b> comments	Good work.	

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
