PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>This article is a very nice review about congenital toxoplasmosis. The article is well structured, based on recent scientific literature. References are complete.</p> <p>There are only minor suggestions.</p> <p>I suggest to change the title to " Congenital toxoplasmosis: present and future challenges, a review", as both words have spelling mistakes and I did not find any mention for an acronym for (Prozspect)....</p> <p>At pages 13 and 14 there are spelling mistakes for toxoplasmosis (written: taxoplasmosis).</p> <p>Beside these minor corrections, I consider the text suitable for publication.</p>	
Minor REVISION comments	no	
Optional/General comments	no
